

CZECH REPUBLIC

ZŠ TGM Borohrádek

eTwinning Time Capsule 2014 - 2014

Dear Reader!

This book is a collection of letters written by pupils from the Czech Republic attending Primary School of T. G. Masaryk, Borohrádek.

The letters were written in 2014 and 2015 during an eTwinning project called Time Capsule 2014 – 2114. They are part of International Message Books placed in Time Capsule Boxes buried in 2015 near European schools taking part in the project. The next generation is expected to open the box with letters in 2114.

Enjoy reading!

World in 2114

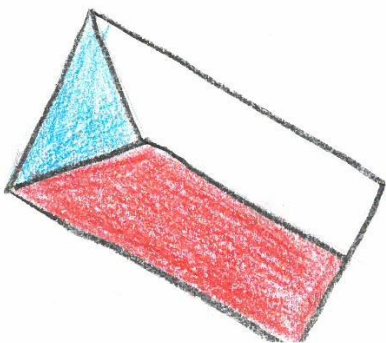

Hello! We are pupils from ZŠ TGM Borohrádek, the Czech Republic. Our names are Naty, Zuzka and Dan.

We think that the world in 2114 will be full of wars. Children will go to school by jets. Instead of teachers there will be robots. Children will use computers at school all the time. On the other hand, it is possible that children won't go to school and will learn on the Internet at home.

People will buy everything on the Internet. They will eat XXXL hamburgers and French fries and will forget traditional dishes. On menus there will be hamburgers, nuggets, French fries, cheeseburgers and so on. People will live shortlly because they won't do sports and will just sit and robots will do everything. People will have friends on social networks only. There will be factories, rockets and much smoke everywhere. In our opinion, people won't recycle and there will be trash everywhere. As for work, everybody will use a computer. People will have household robots that will tidy up and wash the dishes. People will forget Christmas, Easter or Halloween. Families will communicate on-line.

We are afraid of the future because the world could become worse. From our perspective, today we spend too much time on the Internet and different social networks. However, we hope that in 2114 you will live in peace and everything will be OK!

Goodbye and enjoy your life!

17.12.2014

Dear

Future

generation

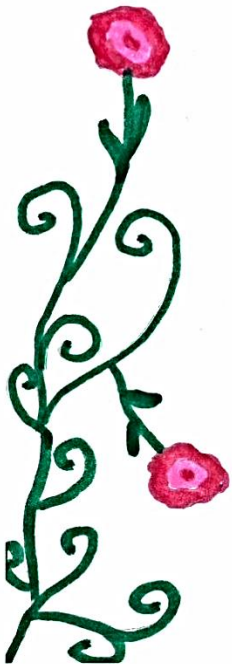

Hi! Our names are Ann, Jane, Dave and Lacta. Ann is 14 years old and her hobbies are riding a bike, going out with friends and skating. Jane is 13 years old and her hobbies are in-line skating, sleeping and riding a bike. Lacta is 14 years old and his hobbies are playing Pc games, riding a bike and swimming. Dave is 13 years old and his hobbies are swimming, playing Pc games and running.

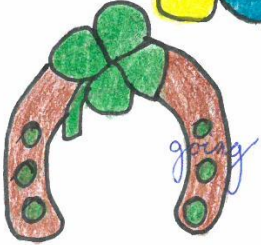

We would like to tell you about the future. As we see it, the world in 2114 will be good. In our opinion, there will be flying cars. People won't have to drive cars but computers will drive the cars. Trains will be faster than trains of our generation. There will be electric cars.

People will have modern glasses instead of smartphones. People will have chips in their heads for reading thoughts. People will be able to communicate without speaking. Pupils in schools will have tablets in their desks. Pupils will use virtual reality. Pupils will not do their homework. Children will not go out with their friends and will stay home and play video digital games.

To conclude, we would be happy if you read this project in 2114 and live happily in peace.

Future world

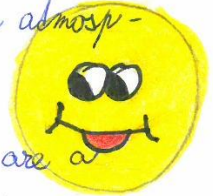

Hello! We are Denia, Marta and Peter and we are going to speak about our vision of future world. And let's go!

We think that future world will be damaged because people won't care for the environment.

It's no secret that life on Earth won't be possible, but some people will invent gadgets that will clean the atmosphere and that's why life will be possible.

If people destroy nature, nature will revenge. We are hundred percent certain that electronic devices will be everywhere. People will use only technologies and won't go outside.

Robots will rule the whole world. Rubbish dumps will be everywhere too because people will throw things away all the time - for example tablets, because they will be one month old and people won't be interested in them anymore and will buy a new one.

We would say there will be more social networks in the future. For example Facebook will be hazardous because there will be perverted people that will pretend to be other people. Ask, Twitter, Instagram and next social networks will be similar to Facebook.

Also, there will be flying things - for example houses, cars, bikes, boats, schools and other things. There will even be flying trees.

From our point of view, houses will be bigger than now and people won't clean them because they will have household robots. Food won't be healthy. There will be McDonald's, KFC and next shops. To conclude, everything will be different than now and in other words, people should care about Earth, because it is and will be what makes our lives possible.

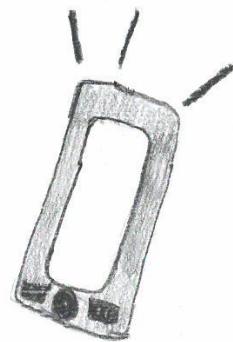

17th December 2014

Future!

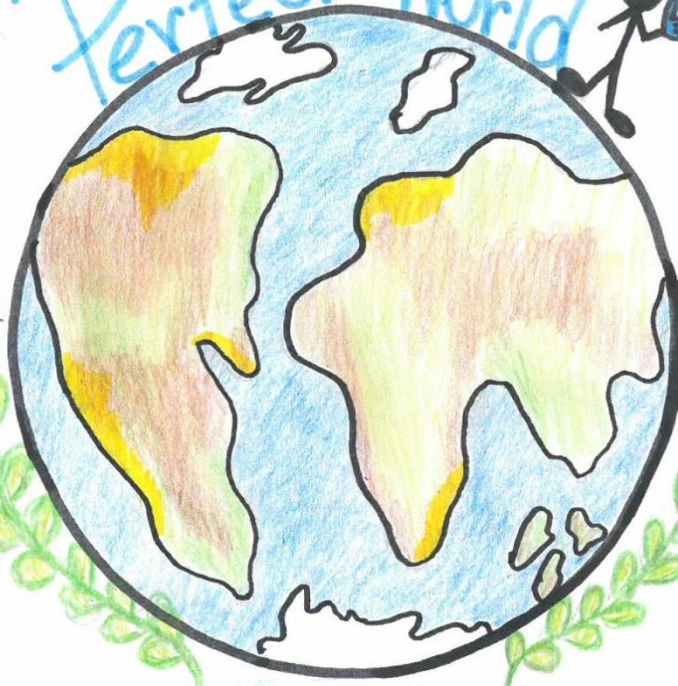

Hello, I am Darina Fořbová from the Czech Republic. I go to school in Borohádek. I am 14 years old. I am from VIII. B. My favourite school subject is P.E.

I think it is very hard to predict our future. But as I see it the world in 2114 will be bad. In my opinion people are silly - often watch TV, play computer games. From my point of view people will have different problems. People won't do sport. They will have health problems. I think there will not be teachers in the future. And there will be online teachers on telephones, tablets and computers. Cars and planes won't be used. People will walk. Goodbye and enjoy your life!

! 17.12.2014!

Perfect World

HI, I'M PAJA
I'M 14 YEARS OLD
I LIVE IN BOROHRÁDEK
I LIKE FOOTBALL.

HELLO, I'M KATA.
I'M 15 YEARS OLD
I LIVE IN BOROHRÁDEK.
I LOVE SPORT!

• WE THINK THAT OUR
WORLD IS DANGEROUS.

- ANYONE WILL TELL YOU THAT THE WORLD IS GOOD OR BAD.
- IT'S NO SECRET THAT THERE ARE WARS, BUT WE DO NOT LIKE WARS.
- IN THE PERFECT WORLD PEOPLE LIVE IN PEACE.
- PERSONALLY, WE THINK THAT SOME PEOPLE ARE RACISTS.
- WE'RE AFRAID THAT THEY DON'T KNOW MUCH ABOUT PEOPLE
- WHAT WE LIKE ABOUT THE WORLD IS THAT THERE IS INTERESTING NATURE.

- WE MAY BE WRONG, BUT WE'D SAY THAT IN THE PERFECT WORLD PEOPLE DON'T NEED VIOLENCE.
- SOME PEOPLE MAY DISAGREE WITH US, BUT WE THINK THAT LIVING IN PEACE IS GOOD.
- IN OUR OPINION, PEOPLE SHOULD HELP EACH OTHER.
- I LIKE OUR WORLD BECAUSE IT IS UNIQUE.

Hello! 😊

My name is Iva. I am 13 years old. I'm from Fidelev in the Czech Republic.

I have long brown hair and blue eyes. I'm 165 cm tall.

My favourite animals are horses, dogs and cats.

My favourite subjects are P.E, Maths, Science and English.

My favourite food is apple, pizza and ice cream.

My favourite sports are tennis, riding a horse and riding a bike.

My favourite drinks are coca-cola and juice.

I like listening to music.

I think that in hundred years there might be aliens and darkness.

There will be no computers, mobile phones and tablets.

There would be no shops, internet and hospitals.

Nowadays, almost everything is ~~has~~ cell phones, computers, tablets.

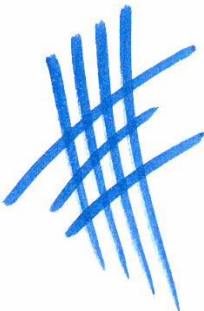

People drive cars, there are shops and hospitals.

Children go to school, adults can work and earn money for food, houses, clothes and doctors. In hundred years, it may be entirely good or bad than it is today.

But I hope life will continue as now.

Written by Iva Lochmanová.

Future in 2114

Hello! People from future.

We are Juliana and Lenka. We live in the Czech Republic in 2014. We are in form VIII.B.

I am Juliana Slavicková. I am 13 years old. I have got brother and sister. My best friend is Lenka Beranová. My hobbies are drawing, riding a bike, sports and reading books.

I'm Lenka Beranová. I'm 14 years old. I have one brother. His name is Pavel. My best friend is Juliana. My hobbies are sport, volleyball, basketball, football, drawing, reading books and playing the piano.

We will speak about:

- 1.) Illnesses
- 2.) Fashion
- 3.) Technologies

1.) Illnesses -

A lot of people will be fat and lazy. In our opinion, there won't be different illnesses - for example cold and flu. No doubt people will invent new medicines for AIDS, diabetes and good medicines for cancer. On the other hand, there will be new illnesses.

2.) Fashion -

In our opinion, clothes will be elastic. We think people won't wear dresses and skirts. But people will wear trousers.

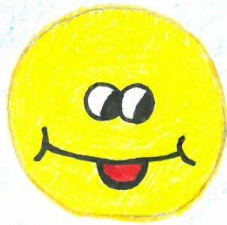

3.) Technologies -

We know there won't be mobiles and tablets. Technologies will become smaller from mobiles will microchips on ears and from tablets will be similar to watches. No doubt people will fly to Mars.

To conclude, technologies will be very advanced.

Hello!

I am Barbora from the Czech Republic. I like skiing, travelling, visiting my friends and dancing. I am going to speak about future. I think everything will be different than now.

Future machines will be much better. They will be more efficient and easy to work with. Cars will be very comfortable and people won't drive them. TV will be a touch screen and very, very big. Interactive boards will be a touch screen too. There will be much information in them. Phones will be very big and they will be collapsible. Tablets will be collapsible too. And they will have a lot of memory. Computers will be bigger than now. Every family will have a computer.

Power stations will be bigger than now. There will be much smoke. That's why they will destroy atmosphere. They will destroy ozone too. 'Ozone is very important for people.' Global warming will be very on the border. Melting ice and warming planet will be very tragic. Our Earth will be very hot. And maybe life on the Earth will be very endangered. The main reason is the fact that people will use power stations in a large scale.

Food will be unhealthy. Food shopping will be very simple. People will go on the Internet and will choose food or drink and in five minutes food will be delivered. Prices will be higher than now but things won't be very expensive. In my opinion, selection of food will be very varied.

School will be advanced in future. I am afraid that computers will be in every classroom and pupils will work only with electronic devices and P.E. won't be. There won't be teaching aids. Pupils won't need them. Furniture will be very comfortable and every pupil will have one's own table and armchair. Classrooms will be bigger than now. Teachers will be kind and teachers will be young.

DREAMS

I wouldn't like if sports are only on computers but I hope that sport will be real. Stadiums will be bigger than now and they will be comfortable. In my opinion, there will be food and drinks next to armchairs.

Clothing will be comfortable but even more modern. It will be very colourful. Prices will be normal. Shopping will be simple too.

Housing will be in my opinion very comfortable and very modern. TV, tables, notebook, mobiles, wifi will be in every home. Homes will be in cities because in cities there will be shopping centers, clubs, restaurants and game parks. There won't be homeless people because all people will have money to buy a house.

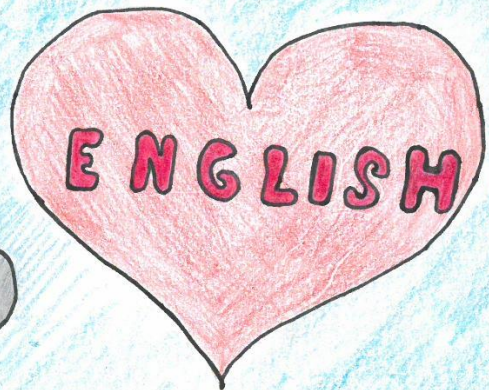

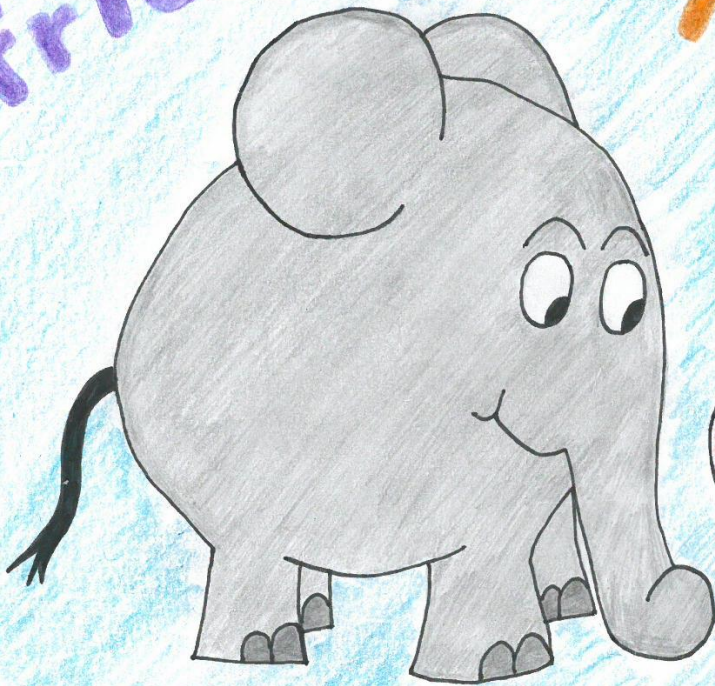

All people will have an opportunity to visit foreign countries. Prices will be acceptable. Salaries will be higher than now.

To conclude, future is behind our door.

Friends

Forever

What would be a perfect world.

Hello! My name is Pita. I am 13 years old. I like sport.

Hi! My name is Nik. I am 13 years old. I like pizza and I love floorball.

Let's imagine a perfect world...!

We think that to have a perfect world, people must behave in a way that doesn't hurt people around us, nature etc...

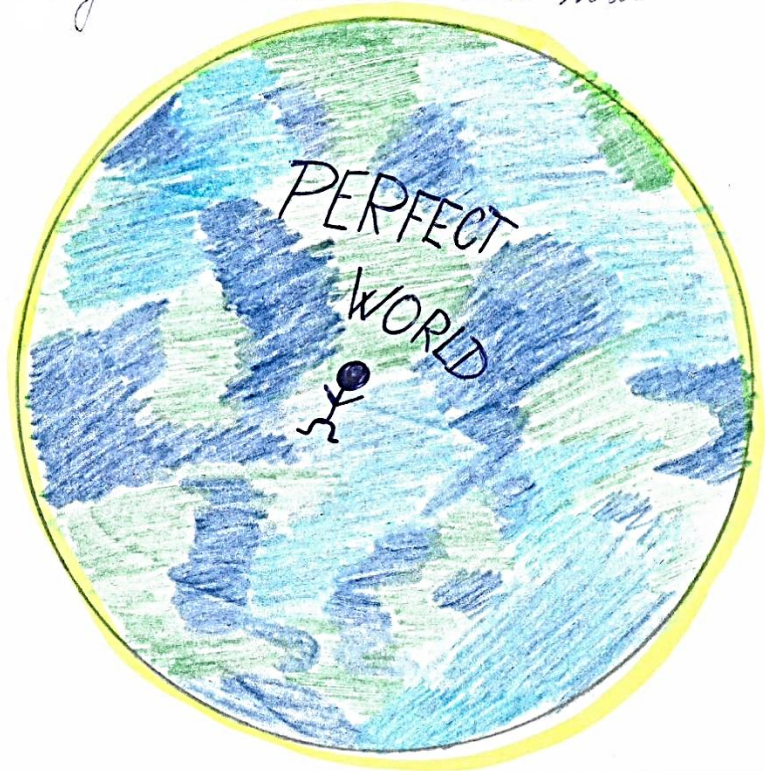

People should stop smoking, drinking alcohol, if all of these things were limited, the world would look a lot better than it looks now.

It would make it a perfect world...

We also think that some of us spend almost all the time on Facebook.

They live on the internet and therefore do not quite know how to go out and see our beautiful world.

We personally think that in 10 years Facebook will not be as popular as it is now.

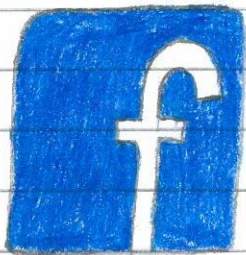

14.1.2015

Stará

Future

Hello, I am a pupil from ZŠ TGM Boroňádek from the Czech Republic. My name is Zuzana. I am 14 years old. My hobbies are listening to music, sport and watching TV. I think that it is very hard to predict our future. But as I see it, the world in 2114 will be bad because people will still be on Facebook and they won't go out. In my opinion, people will buy everything on-line because they will be lazy. I think people will be ill because they will eat unhealthy. I think people will have little money because they won't work. From my point of view, there won't be any schools because pupils will learn on-line. To conclude I hope you will live in peace and everything will be OK.

Hello,

My name is Miša.
I live in Czech Republic.
My town is very nice.
Its name is Borohradel.
I'm 14 years old.

Hi,

My name is Denča.
I live in Borohradel.
I'm 15 years old.
I love music, dance
and fashion.

Hello,

My name is Miša.
I live in Borohradel.
I'm 14 years old.
I love dancing.

WHAT ARE THE BIGGEST MISTAKES THAT PEOPLE MAKE?

We think we can all accept that everybody makes a mistake from time to time.

We really can't imagine that nobody ever makes a mistake.

Some people are dangerous, smiling, nervous, unhappy and crazy.

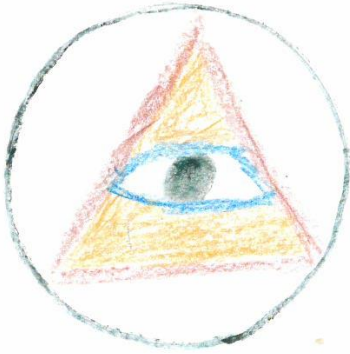

In a nutshell, nobody is perfect.

- Firstly, we'd say that people don't spend enough time with their families or friends.
- Secondly, many people smoke weed, eat in fast foods, they are addicted to alcohol.
- And thirdly, computers.

Everybody knows that there are problems in the world.

We three won't change the world, but every little helps.

FuTuRe 2115 - BoRoHrÁdek

Bohrádek will be a big town. It will be capital of the Czech Republic. It will have two million people. It's important to say there won't be schools.

No - School !

Children will learn at home. Teachers will teach with computers with Teamspeak 8. It's necessary to say there will be toilets with bottles and cameras.

Learn at Home

Automatic Driver!

Automatic ^{driver} will drive cars. Cars will use water instead of gas and they will float. Shops won't have employees. They will have a computer that can look up and bring food in a few second. No doubt everybody will have a smart computer and will be transparent. There will be a new social web. It's name will be X-book.

! Future

2115

My name is Tomáš.
I'm 14 years old.
I'm from the Czech Republic.
My hobby is football

My name is Karel.
I'm 14 years old.
I'm from the Czech Republic.
My hobby is playing PC games.

Time Capsule 2014 – 2114

Hello! My name's Veronika Rejnušová. I live in Černá nad Orlicí. My hobbies are sleeping, playing volleyball, watching ice-hockey and football.

My name is Matouš Kuchař. I live in Černá nad Orlicí. My hobbies are playing PC games, playing basketball and riding a bike.

We think the world will be very modern in the future. Cars will be automatic. Cities will be bigger than big lakes. Cars will fly and will be faster. Oil will not exist, we will use bio fuel. On Earth there will probably be 10 billion people. On our planet there will not be so many animals. Getting a job will be a lot easier than now. Social networks will be very popular. We think it will be the main fun for some people. Generally speaking, Facebook and Twitter will be popular.

People will be lazy and a little bit fatter. Travelling to different countries will be faster with ultra-speed trains. We think we will travel to the Moon with space escalators. We will have robots to help us at home. Robots won't be at home only, robots will be in factories too.

We think the future is going to be very good.

How people can improve their health

We think we can all accept that our health is the most important thing and we can't damage it. On the other hand, people destroy their health because they smoke and drink beer. But we can do a lot to improve our health and keep fit!

First of all, people should be happy, friendly and shouldn't hurt themselves.

Some people may disagree with us, but we think that people should stop chatting on Facebook and go out with friends.

As we see it, many people are pessimists. But from our point of view, there are a lot of things that can make us happy – for example helping each other.

We also think that people should eat healthily and do sports instead of playing computer games.

Something about us ... :-)

Hi! My name is Pavel and I live in Borohrádek from the Czech Republic. I am 14 years old and I have been playing football for 8 years. I am happy and crazy :D

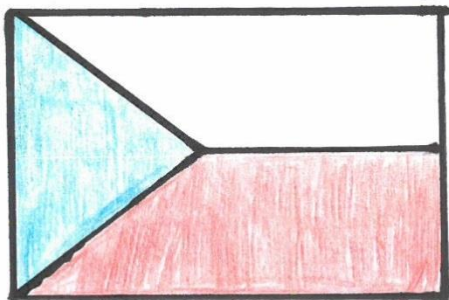

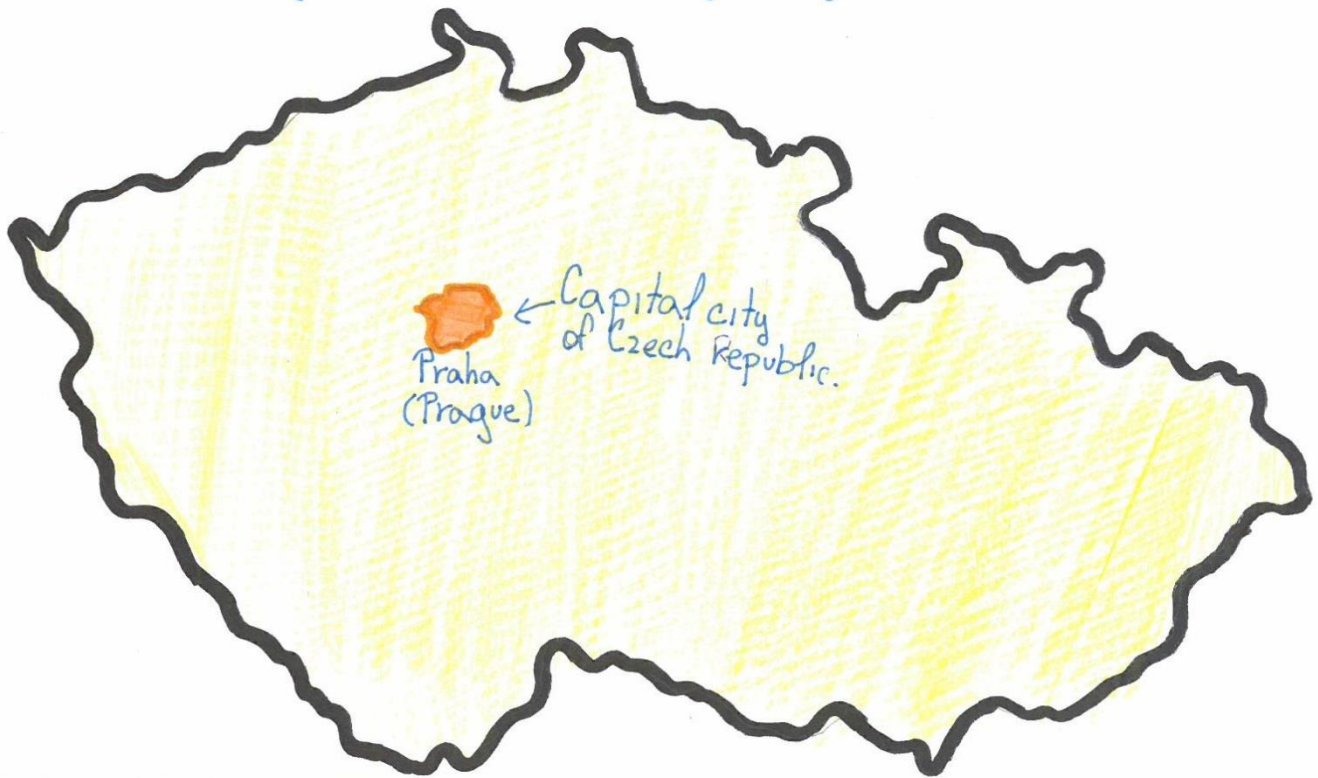

Hi, my name is Jakub and I live in Borohrádek from the Czech Republic. I like playing PC games and the most important thing in my life is sport. I'm 14 years old. And I am happy and crazy too.

- 28: Eliška Zahajská
- 29: Sára Pfeifferová

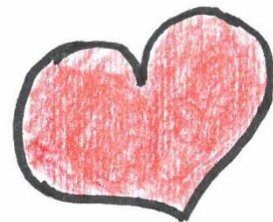

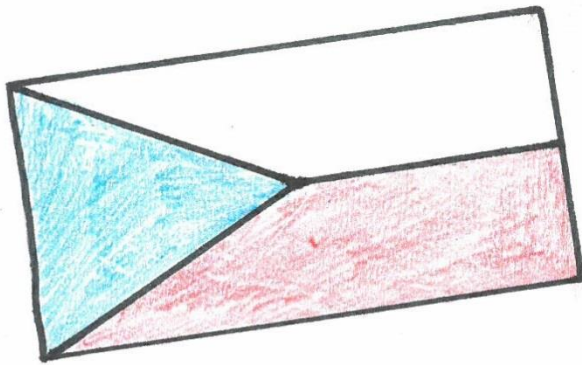

Hello, I am Alena from the Czech Republic. I'm thirteen years old. I don't have got a sister or brother. I think my favourite subjects are P.E. and Art. My biggest hobby is football. And I like computer games. My favourite PC game is GTA. I am sure I like music. My favourite singer is Ektor. In my opinion he's the best singer of all. And to cut a long story short, I love food. I would like to eat every time. It's important to say I eat healthy. To conclude, thank you for attention. Goodbye. :)

Hi!

My name is Iva. I'm twelve. I am from Kotelov. My favourite hobbies are volleyball, playing the guitar, dancing and mushrooming. My favourite subjects are P.E., English, Math and Czech. I have got a sister. Her name is Ema. She is ten.

Her favourite hobbies are dancing and singing. My favourite animals are cats and dogs. I can play the guitar. I would like to be able to play the piano. On the one hand, guitar is also good. I often eat fruit. I listen to different music. I like ice cream. My favourite ice cream is vanilla, strawberry and orange ice cream. I haven't got a favourite singer. I often meet my friends. We go shopping. I love shopping. I am interested in sport. I like watching TV. My favourite type of film are series. I hate advertisements. I like my bed and I love sleeping. I love reindeers. On the other hand, why not? I would like to visit Barcelona. To conclude, I would like to say that I am very happy that I go to school ZŠ TGM BOROHRÁDEK.

I'm happy

My name is Veronika. I'm twelve. I go to 7th grade of elementary TGM Borohradka school. I like this school. I go to this school by bus. I'm from Zolaci nad Olici. It's a small village, but from my point of view, it is beautiful. My hobbies are skiing and drawing. I think that hobbies are important for life. People are not bored with hobbies. My favourite sport in winter is skiing. In my opinion, this sport is interesting, but it is expensive. In summer I like swimming. Everybody knows that the best swimming is in the sea. My favourite subject is Art. My biggest hobby is drawing. And therefore I like this subject. I have got one brother. His name is Jan. He's eighteen. I wouldn't like to be without my brother. I like him very much. I can play the piano. I don't like this musical instrument, but my mum says that it's important for my future life.

This school will fly around the world. Thanks to flying, pupils will be able to visit interesting places and see different things. Thanks to flying, pupils will like school very much. Pupils won't go to school by bus because the flying school will pick them up. Pupils will get up at nine o'clock because school will start at half past nine.

Hello. I am Adam from the Czech Republic. My favourite sport is football. I have got one brother. His name is Lukáš. I am fourteen years old.

Hi. I am Tom from the Czech Republic. My favourite sport is inline hockey. My favourite PC game is World of Tanks. I have got one brother and one sister. I am fourteen years old.

Hello. I am Petr from the Czech Republic. I like playing ice hockey and PC games. My favourite PC game is World of Tanks. I have one sister. She is ten years old and I am thirteen years old.

Hi. I am Alis from the Czech Republic. My favourite PC game is medi 2. I am fourteen years old.

PERFECT SCHOOL

Hi! Our names are Ann and Jane. Jane is 13 years old. Her hobbies are sleeping, in-line skating and riding a bike. Ann is 14 years old. Her hobbies are swimming, riding a bike and going out.

Describe a perfect school

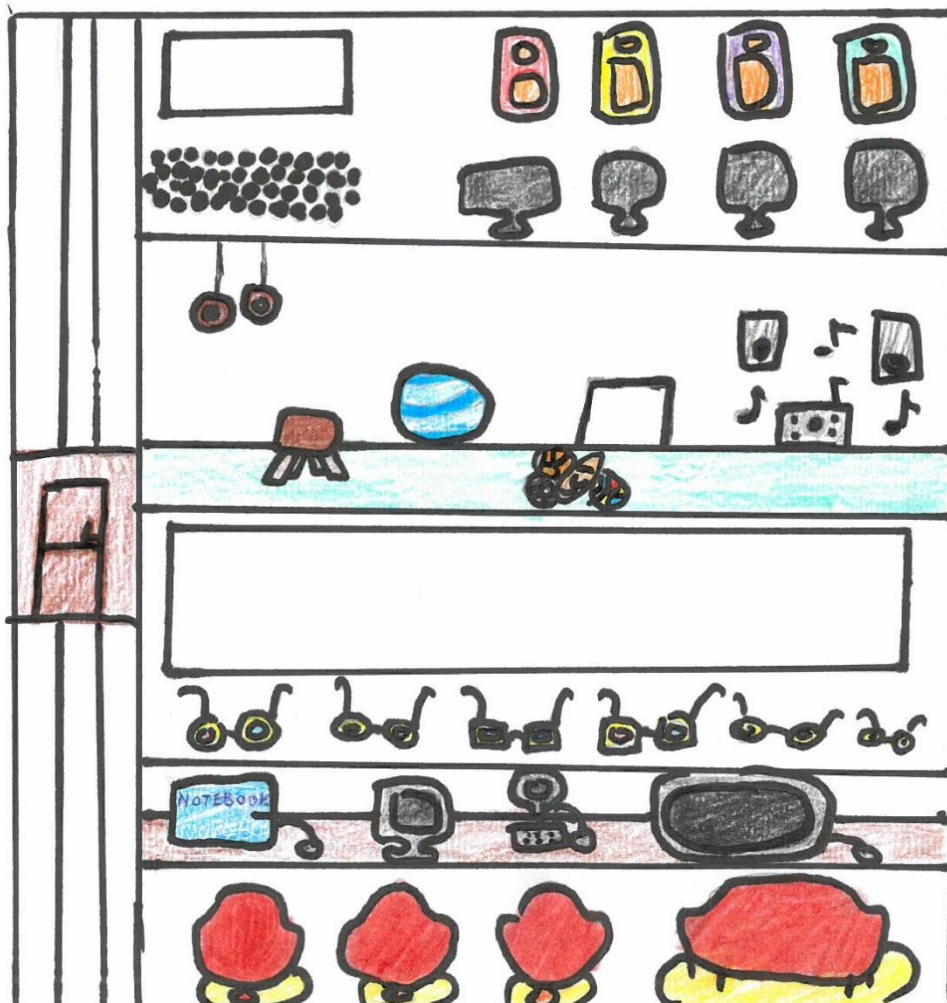

Everybody knows that school is fine. On the other hand, anyone will tell you that school is sometimes boring. From our point of view there are modern teachers in the perfect school. In school there must be modern desks, interactive boards, a swimming pool, cinema and a snack bar. The main reason is the fact that pupils can use modern technologies such as computers or tablets. In school there won't be afternoon lessons, any marks and these subjects: Czech, Physics, Civics and Ethics.

Hi. Our names are Aida and Ivia. We are twelve years old. We are from Tachov and Zdelev. Our favourite sport is volleyball and our favourite subject is P.E. We can play the guitar and sing.

These are our ideas about a future classroom. There are four floors. On the first floor there is a computer room. There is a computer board too. On the second floor there is a 3D classroom. There are super animations. On the third floor there is a sport club. There are very fine people and a super music. There is a lift to the fourth floor. On the fourth floor there is a lounge. There are beds and TVs. There is a cinema on the fourth floor.

Future classroom

CLASSROOM OF THE FUTURE

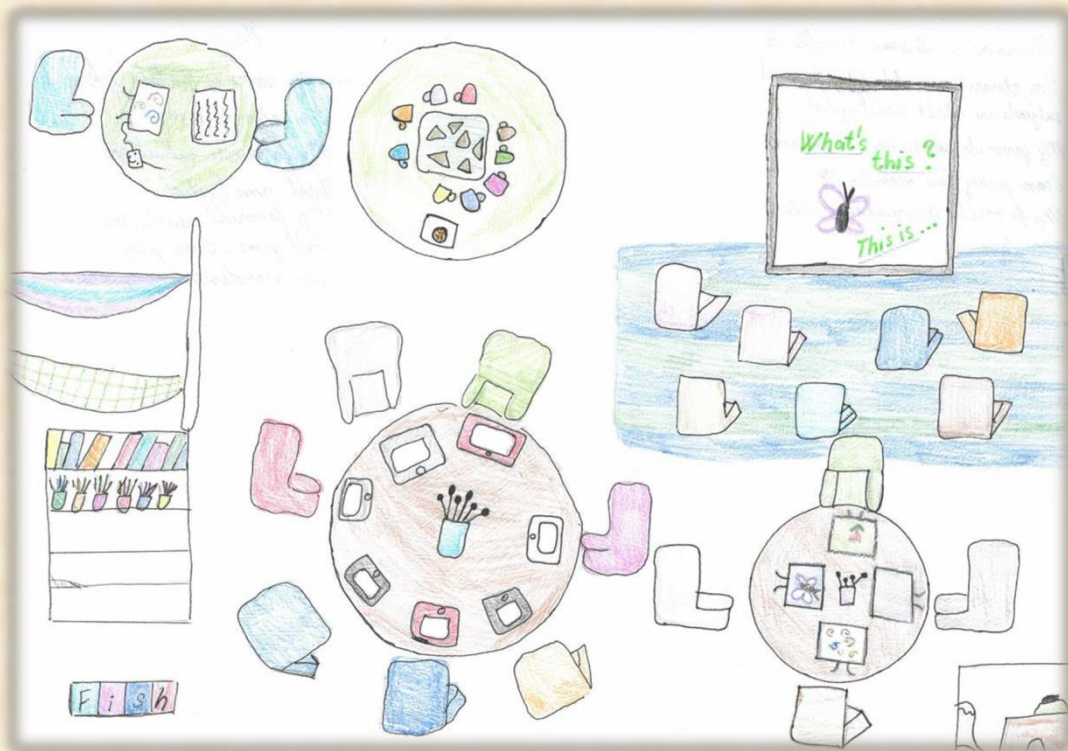

Hello!

My name is Zuzana Loufkova. I'm eleven years old. My favourite subjects are Math and English. My favourite sports are ball games. I can play the recorder. My favourite animals are cats and dogs.

Hello!

My name is Natalie Čejkova. I'm eleven years old. My favourite subjects are Math and English. My favourite sports are ball games. I can play the recorder and the saxophone.

This is our classroom of the future.

HELLO.

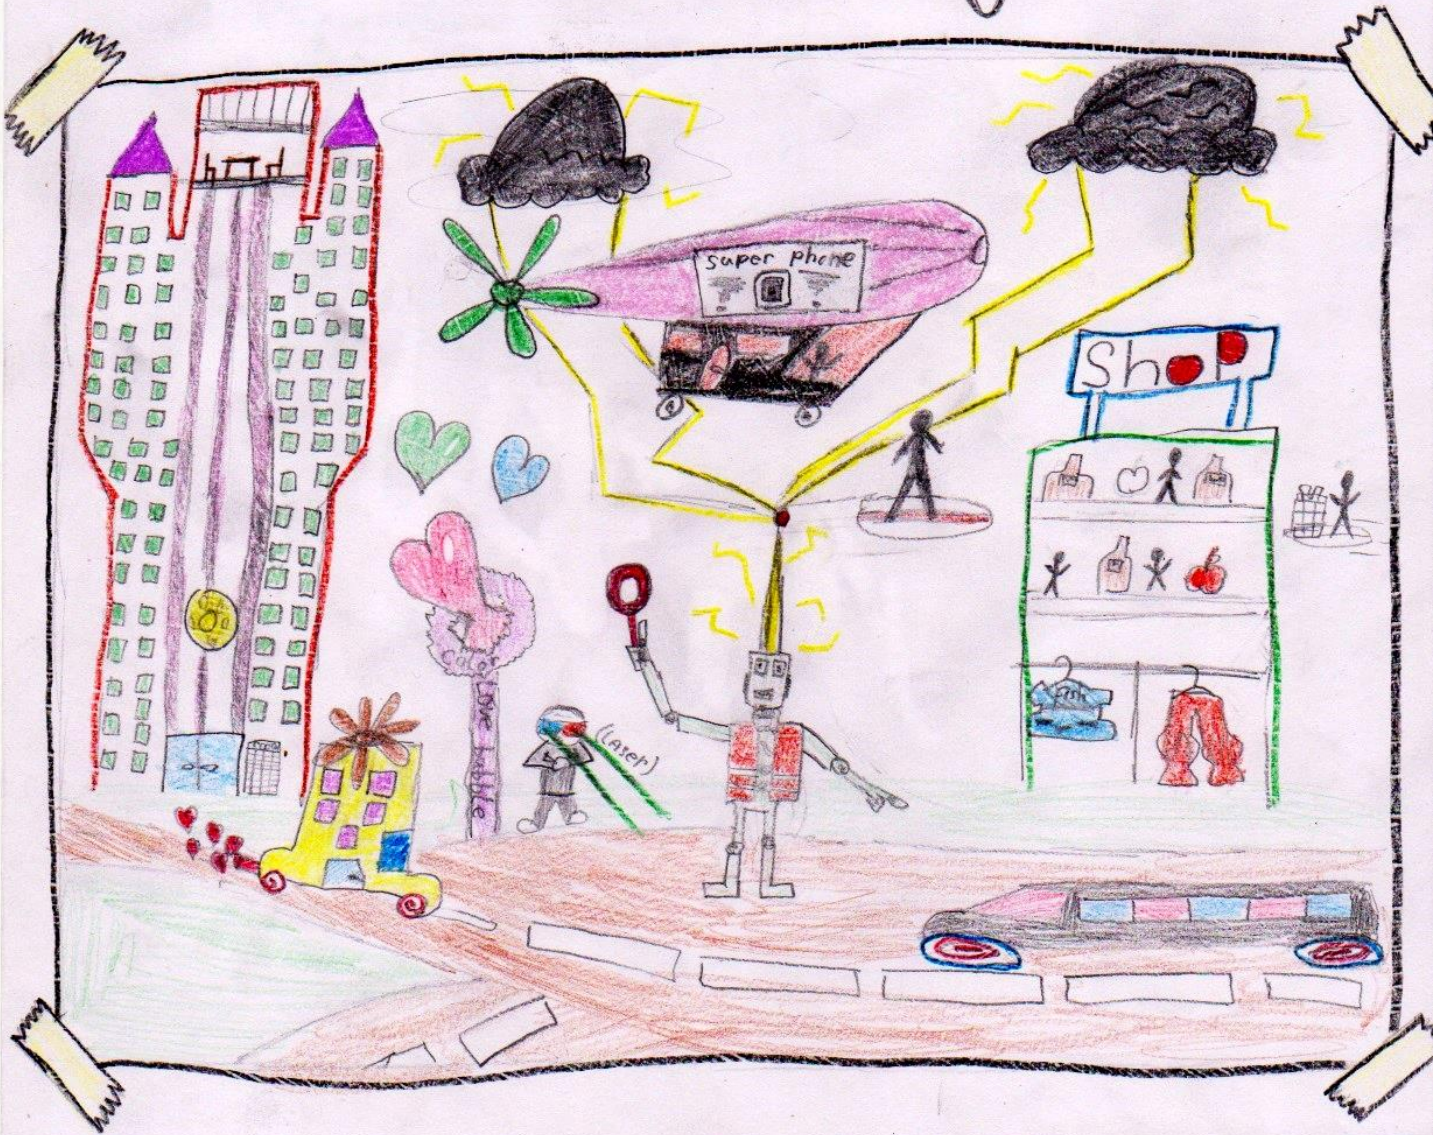

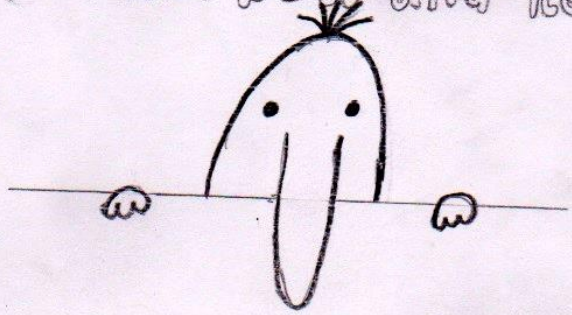

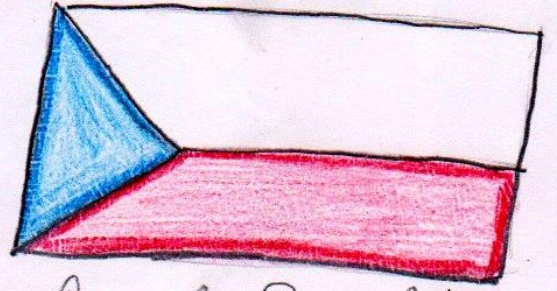

I am Anna Haladová.

I'm eleven years old.

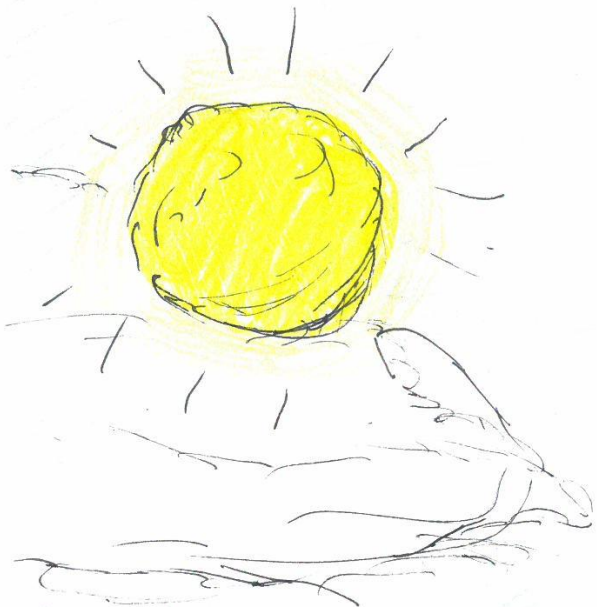

I'm from Borohrádek in the Czech Republic.

My favorite sport is floorball and ice hockey.

This is a future city.

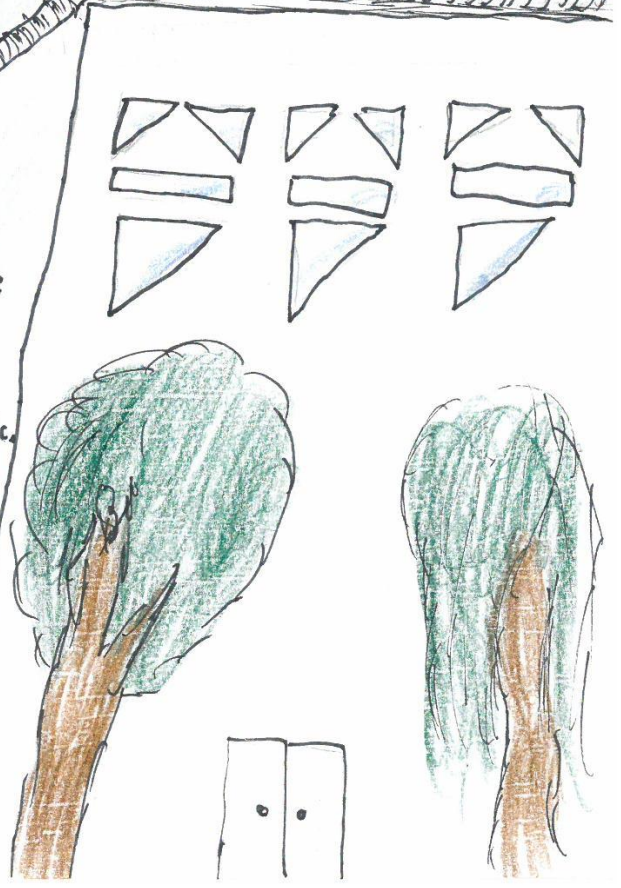

Borohradek
23rd January 2015

Hello! My name
is Pavla. I am from
The Czech Republic.
This is my
Future city.

There are big Houses
in the city. there are
Plants on Houses.
There are trees,
flowers, lianas
and creepers.
There are
Flying cars.

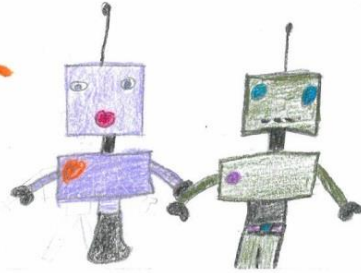

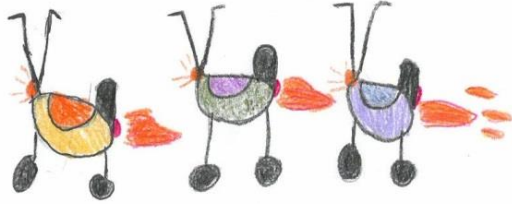

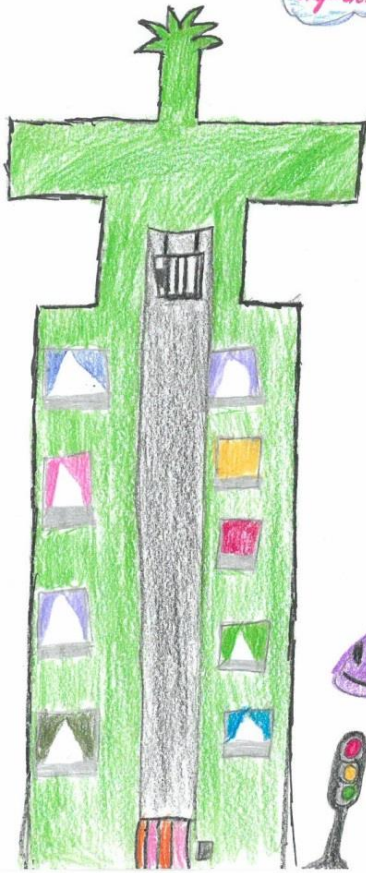

My name is Denisa Lihomová
I'm eleven. I'm from Lenna
and Olšice. My favorite
sport is ballgame.
My favorite subject is
English.

Hello

My name is Alena Šimáčková
I'm eleven. I'm from Božetice.
My favorite sport is ball game.
My favorite subject is Music.

Future

CITY OF THE FUTURE

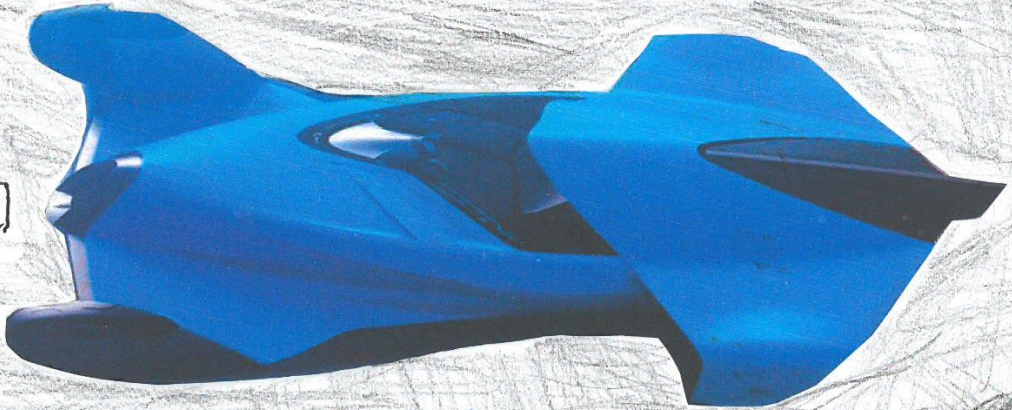

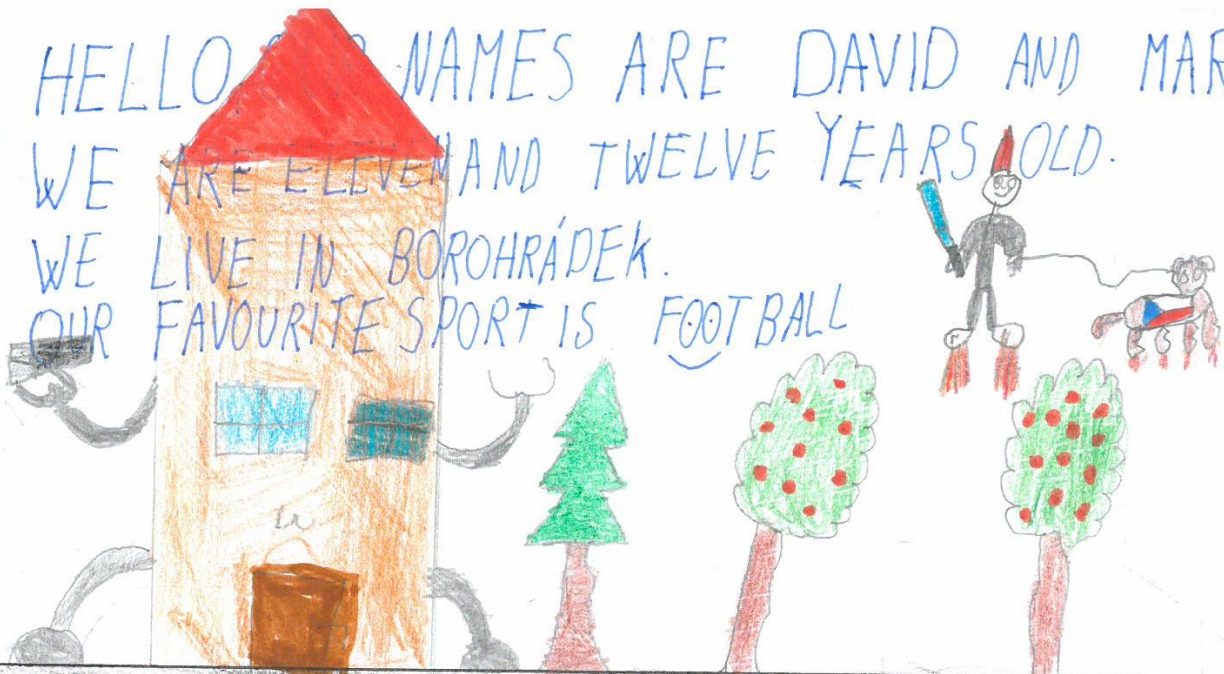

Hello!

My name is Nikola Loufková. I'm twelve years old. I'm from the Czech Republic. I like dancing. I can draw.

This is my city of the future. In this city there is a road above the houses. The school is the first building on the left. There are no books at school because pupils use tablets or computers. In the Art room there is everything painters need. School bus looks like a rocket. There is a triangular parking lot in front of the building. Other buildings are houses where people live.

HELLO OUR NAMES ARE DAVID AND MARTIN.
WE ARE ELEVEN AND TWELVE YEARS OLD.
WE LIVE IN BOROHRADEK.
OUR FAVOURITE SPORT IS FOOTBALL

ITS NAME IS MADA PX-20842
IT CAN FLY, SPEAK AND GO ULTRA FAST, DO SUPER JUMPS.

IT HAS GOT AN AUTO PILOT.
IT'S MADE IN AFRICA BY A COMPANY

MAXOX

23RD JANUARY 2015

My name is Štěpán. I'm twelve years old. My favorite sport is wrestling. My favorite subject is P.E.

My name is Martin. I'm twelve years old. My favorite sport is volleyball. My favorite subject is P.E.

New Super car

This car can fly. Its name is BMW M8X2. It is very fast (400 km/h) It uses electricity.

Our new super car

Hello!

My name is Katka. I am 15 years old.

I live in Borohradek. I am from the Czech Republic.

My hobby is sport.

Hi!

My name is Arlet. I am 15 years old.

I am from Borohradek. I live in the Czech Republic.

My hobbies are sports and dancing.

Everybody knows that cars are very important. On the one hand, today's cars have some disadvantages.

On the other hand, today's cars can be improved. We would like to introduce our new super car.

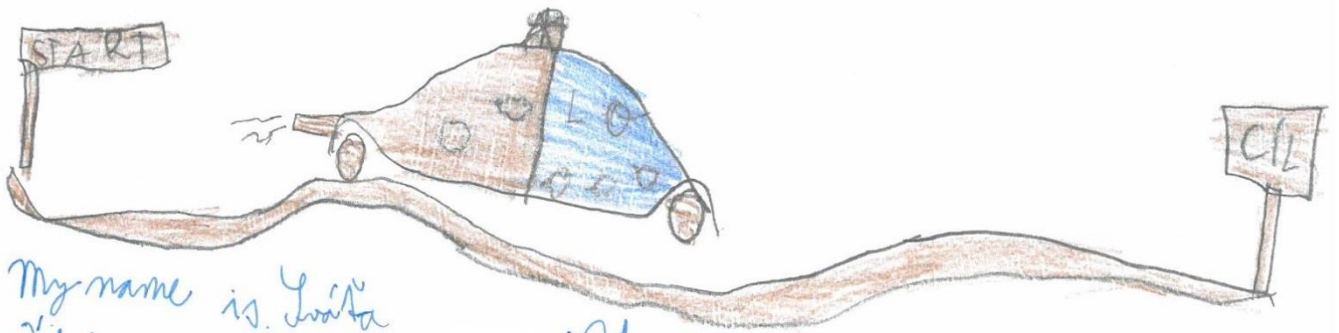

Our car name is pink devil. This car was made in Borohradek. This car was made in our company Kadone.

Our car was made in 2015. Pink devil can fly and ride on the water. Our car is pink, very big and handy.

It's no secret that there are too many car accidents but this car is very safe. The main reason why this car is good is that you don't have to drive it. The car has four wheels, a big radio, computer, heated seats and bar.

Another important thing is that you can drive it via your mobile phone. The car doesn't need petrol because it is electric. Our car is only for girls. Buy our car!

My name is Louisa.
 I'd like to be a pilot.
 Max speed is 180 km/h.
 Its name is knight rider.

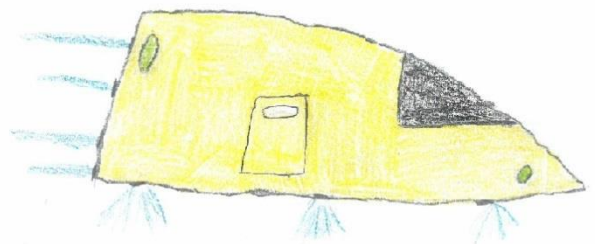

It can fly.
 It can travel for a long time.
 It can go on water.
 It is a racing car.

Future car

I am Jakub Šocháček. I am 11 years old. I am from Čermná nad Teplou.
 My favourite sport is football and ice hockey.

I am Tomas Píbor I am 12 years old. I am from Čermná nad Teplou.
 My favourite hobby is judo.

This car can float. It's very fast. It has got a jet engine.
 It's aerodynamic
 and it has got green lights. It has got dark glasses.
 It has got a titanium body.

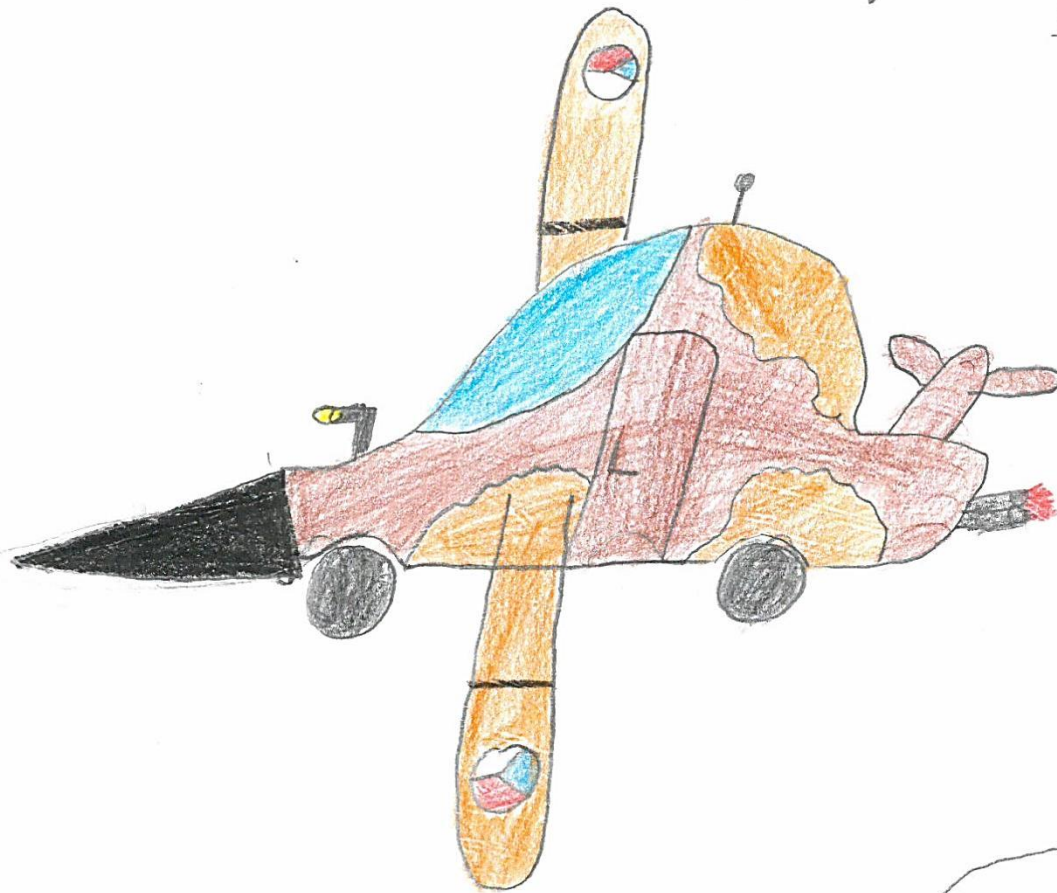

Hello !

My name's George.

I'm 10 years old. My favourite ice cream is lemon.

I can swim. My best friends are Dominik and Dominika.

This is My Super Car

It can fly and dig.
